

Newest products introduction & Welcome you to visit our booth

Dear Friends, We're very glad to inform you that all of the exhibitions materials are prepared well and delivered to Dubai for attending **2014 BIG5 Fair**.

Now, we're going to introduce the newest products which will be displayed on the fair-Carved Bricks—

The brick-carving products and realized the industrialized production of the carved brick via the modern streamlined method of work. The shapes of the products include: rectangle, square, lozenge, taper, oblique, round and other geometric shapes of single-unit bricks. Moreover, these geometric shapes can form various ingenious patterns through embedding combinations characteristic of strict symmetry and rich decoration.

We believe you'll be interested in the newest products. On the occasion, our professional salesman will aspire to introduce detail information and discuss marketing cooperation with you face to face. Your are always welcome to visit our website for more information.

At the mean time, hot products - **Terracotta Panel**, **Terracotta Louver**, and Terracotta Tiles & Bricks also deserve your attention.

Best wishes to you!
